ABOUT

Rodco Home Essentials presents the proud beauty line of Colleen Madwah where she creates hand-made, organic bath, body, and spa products. For Colleen, true beauty is found in the development and authenticity of the formulations she uses to prepare Rodco Home Essentials products, where each batch is measured and hand produced in small quantities to ensure the quality of every soap, body butter, lip balm, healing balm, sugar scrub, powder and deodorant that is made. Throughout her line, she creatively combines the beneficial qualities of Trinitario organic cocoa butter and local ingredients.
